Gold experienced a further sharp upward turn to-day, the price having risen steadily from 143% at the opening of business to 146%, after which it reimpsed to 145%. It then recovered to 146% and finally closed at 145%. Foreign exchange was at the same time very firm and ctive on the basis of 109% a 110 for bankers' bills on England at sixty days, and 111% a % at short sight.

On the Stock Exchange the railway speculation showed increased strength and prices advanced with two or three exceptions. Erie was largely dealt in and well supported, while the stock was in such active borrowing supported, while the stock was in such active bordward demand that 1/2 per cent was in many instances paid tor the loan of it. Reading and Fort Wayne were strong, but Michigan Southern was barely steady, notwithstanding its largely increased earnings, as compared with those of ast year. The whole market, however, appears to be rising, and the est argument in favor of a tise is that based upo the advance in gold, which has lowered the specie valu of every stock on the list, and in order to adjust price upon their former basis with gold at 130, a rise of 4 a 1 per cent is necessary in all the leading railway shares It will moreover be surprising if, with the provailing monetary ease, something approaching to this does no

The supply of money available for employment on the tock Exchange is increasing, and losns have been made reely at six per cent, with exceptions at five. Some of the banks are encumbered with national bank currency, and this they have been willing to loan at the lower rate on railway collaterals. The demand from the stock okers is, as yet, rather light, but on the increase, ring to the augmenting volume of business. The count line is fairly active, and first class commercial r is quoted at 6 a 7 per cent and 8 a 9 for the second rade. The disbursements of the Sub-Treasury are still ping forward, and the balance in the hands of the Sub-

Treasurer has decreased to \$83,491,612.

Petroleum and mining stocks were generally steady.

the financial gloom and distrust prevailing abroad re inspired some persons on this side of the Atlantic th a vague feeling of dread and insecurity which is in a vague reeing of dread and insecurity which is irely unwarranted. Because a severe revulsion has in experienced in Europe they fear that a similar ulsion may be felt here, and therefore assume an itude of preparation for the worst. But there is less iger of a financial revulsion in this country now than re ever was before, for the simple reason that we are oper money basis without making any attempt ially contract the currency, which is still being iled by the national bank issues. Our money mar-is practically beyond the influence of transatlantic affairs, and had it not been for the injudicious ca of gold by the Treasury it would have been in wise disturbed by the recent panic in England, dthough the latter was almost unprecedented in severity. Had we been, however, on a specie basis, all the banks in the country would have had to end payment, and berein lies the difference between it possibly could be from foreign influences.

The public debt statement for the month of May has

it must be remembered that these have since been rapidly paid out. The amount in the Treasury on June 1 is ted to have been \$129,691,082; but the balance in the and a half millions, and it is fair to assume that a prosowhere. It will be perceived that the amount of coin in the Treasury had decreased \$25,996,450 as compared with the returns of the preceding month, while the amount of currency had increased \$17,700,504.
